

# ARCHOS Invents “Fusion Storage” and Announces First Ever 256 GB Android Tablet

*ARCHOS’ Fusion Storage and Magnus tablets showcased during Mobile World Congress at Hall 1, Stand 1G29 from March 2<sup>nd</sup> to 5<sup>th</sup>*

**Paris – March 2, 2015** – [ARCHOS](#), a pioneer in Android™ devices, presents the ARCHOS Fusion Storage, a revolutionary software that seamlessly combines the memory of any micro SD card with the internal storage on a device. On display at Hall1, Stand 1G29 during Mobile World Congress in Barcelona, ARCHOS will also be unveiling its range of Magnus tablets featuring up to 256 GB of internal storage.

## Fusion Storage by ARCHOS

A revolutionary and unique technology, ARCHOS Fusion Storage optimizes data storage by fusing internal memory with external micro SD card memory. Once activated, ARCHOS Fusion Storage automatically migrates data from the micro SD card and optimizes memory balance, resulting in an increase in install space for apps and games, as well as more storage for media and large files.

ARCHOS Fusion Storage will be available on all new ARCHOS tablets and smartphones, including the new Magnus tablets, and through Over-The-Air updates on select models.

## The Magnus Range – Up to 256 GB of Internal Memory

The first ever Android tablets with up to 256 GB of internal memory, the Magnus range embodies ARCHOS’ belief of delivering excellent tablets with huge storage capacity. Replacing mechanical drives for ultra-fast flash drives, the Magnus series guarantees excellent processing power, superb speeds, and an immersive user experience.

The ARCHOS 94 Magnus and ARCHOS 101 Magnus Plus feature 256 GB and 128 GB of internal storage respectively and enthralls users with amazing HD graphics and outstanding app and media experience without worrying about running out of space for their files, music, games or pictures.

Whether watching an HD movie, surfing the web or gaming in HD, the Magnus tablets completely immerse you into another world. The ARCHOS 101 Magnus Plus and 94 Magnus feature super powerful Cortex A17 quad-core processors capable of running apps and games smoothly while remaining energy efficient for even longer battery life.

The ARCHOS 101 Magnus Plus 128 GB will be available in April 2015 at \$349  
 The ARCHOS 94 Magnus 256 GB will be available in April 2015 also at \$349 exclusively on the archos.com online store.  
 ARCHOS will also be launching the ARCHOS 101 Magnus – the first tablet with 64GB of internal storage at \$179.

### About ARCHOS

ARCHOS, a pioneer in the portable audio and video player market, and now specializing in Android Tablets and Smartphones, has repeatedly revolutionized the market for consumer electronics since 1988. Today, ARCHOS offers its own line of Android Tablets and Smartphones, as well as a full line of OEM devices. In 2000, ARCHOS launched the Jukebox 6000, the first MP3 player combined with a hard disk. In 2008, ARCHOS launched the first generation Internet Tablets, and then the first ever Android powered tablets in 2009. In 2013, ARCHOS launched its first generation of Smartphones with the ARCHOS Platinum series. ARCHOS has offices in the United States, Europe and Asia. ARCHOS is quoted on Compartment C of Eurolist, Euronext Paris, ISIN CodeFR0000182479. Website: [www.archos.com](http://www.archos.com)
