

ARCHOS Unveils Gen10 XS Tablet Line

Redefining the Tablet

ARCHOS' new Gen10 XS tablet line offers super-fast web-browsing, an extra slim design, and a unique magnetic Coverboard for protection, docking and easy typing

Denver, CO - (August 22, 2012) - [ARCHOS](#), an award-winning innovator in consumer electronics, is pleased to announce the unveiling of its [Gen10 XS tablet line](#). The [ARCHOS 101 XS](#), a 10.1-inch tablet that weighs only 21 ounces and measures 0.31 of an inch thin, will be the first of this new line of extra slim Android™ tablets to debut mid-September followed by the release of the ARCHOS 97 XS and ARCHOS 80 XS later in 2012.

In addition to creating a new standard of thin for tablets, ARCHOS continues to push the technological boundaries with the innovative **Coverboard**, a unique magnetic keyboard conceived for each tablet model that will offer protection, a kickstand, docking and easy typing. The Coverboard is included in the box with each tablet.

The entire Gen10 XS line is Google™ certified, features Android 4.0 and allows full access to [Google Play™ featuring over 600,000 apps](#). The range will be upgradable to Android 4.1 Jelly Bean in Q4 2012.

“As the pioneer in the Android tablet market, we strive to continually push the technological boundaries of tablets and user experience,” says Henri Crohas, ARCHOS Founder and CEO. “We are taking our tablets to the next level by releasing an entirely new design that will redefine thin while providing more functionality and a better price than any current Android tablet in the market.”

Magnetic Coverboard: 4 Steps Ahead

The ultra-thin magnetic Coverboard included with all Gen10 tablets enables users to protect, stand and dock the tablet as well as type with a full-size QWERTY keyboard.

Protect

The 0.2" thick protective cover is secured to the tablet with magnets. To open, the Coverboard simply twists to separate and reveal the full keyboard and magnetic kickstand.

Stands

The magnetically guided docking system enables perfect alignment on the keyboard, eliminating the need for clips or stands. The integrated magnetic kickstand holds the tablet to the Coverboard as one solid unit, allowing users to sit back and enjoy their music and movies comfortably.

Docks

When docked the Coverboard is powered by the tablet providing hours of productivity. The Coverboard also has a DC in, so when it's plugged into a power outlet the keyboard functions like a dock and charges the tablet.

Types

The Gen10 XS series come fully equipped with a chiclet-style QWERTY keyboard and a complete version of [OfficeSuite Pro 6](#), a \$14.99 value. This critically acclaimed application allows

you to view, create, edit, print and share Word, Excel and PowerPoint files as well as open attachments and read PDF files. Combine that with a full QWERTY keyboard that also has integrated Android shortcut keys for direct access to main tablet functions for the ultimate in productivity.

Play Anything and Share Wirelessly with the ARCHOS Media Center

ARCHOS Gen10 XS tablets come with tailor-made **Media Center** apps for full HD video, complete codec and format support, jackets & meta-data for your music, videos and wireless sharing over your home network. In addition, each tablet features a **Video Carousel** for a video library experience like no other including automatic jacket download and an easy to use search tool for finding title, series, actor, subtitle or other information. Other media center functions include:

- **Wireless streaming, home file sharing and read media from external storage**
- **ARCHOS remote control app**

Pure Android experience

Certified by Google, ARCHOS Gen10 tablets include full access to Google Play™, including DRM support for downloading books, music and movies.

- **Play Apps and Games:** Over 600,000 apps and games
- **Play Music:** Access millions of tracks and artists
- **Play Books:** Over 4 million books to choose from
- **Play Movies & TV:** Thousands of movies including HD titles, new releases, award-winning films or your favorite classics.

Powered by an **unskinned version of Android 4.0 Ice Cream Sandwich**, ARCHOS Gen10 tablets deliver a pure Android™ experience and will be upgradable to Android's next OS, **Android 4.1 or Jelly Bean**. Additional features include:

- **1.5 GHz smart multi-core processor and 1GB of RAM**
- **Google's suite of mobile applications** including Gmail™, Google Talk™, YouTube™ and Google+™.
- **Google Maps™ with Street View and Navigation**
- **Google Drive™** with 5GB of free cloud storage

About ARCHOS:

Archos, pioneer in the portable audio and video player market, and now specializing in Android tablets, has repeatedly revolutionized the market for consumer electronics since 1988. Today, ARCHOS offers Android Tablets, Tablet PCs and MP3/MP4 players. In 2000, ARCHOS launched the Jukebox 6000, the first MP3 player combined with a hard disk. Then in 2003 ARCHOS introduced the first portable multimedia players with TV recording. In 2006 Wi-Fi is implemented and then touch screens in 2007. In 2008, Archos launched the first generation Internet Tablets, and then the first ever Android powered tablets in 2009. ARCHOS has offices in the United States, Europe and Asia.
