Your phone at a glance

Inserting the SIM card

1. Insert the end of the eject tool into the hole of the card tray and press firmly until the tray pops out.
2. Put one or two nano-SIM cards into the tray.
3. Push the card tray back into the phone.

Note

Dimensions of a nano-SIM card: 9m*12mm.

Inserting the memory card

1. Insert the end of the eject tool into the hole of the card tray and press firmly until the tray pops out.
2. Put the memory card into the tray.
3. Push the card tray back into the phone.

Charging the battery

Connect the phone to the power outlet using the included USB cable and power adapter.

Note

- Your phone and power adapter might heat up while charging.
- Use other USB cable or power adapter might decrease the life span of your phone or cause fire, explosion and other hazards.

Disposal of your old phone

- When the wheellie bin symbol is attached to a product, it means the product is covered by the European Directive 2012/19/EU.
- All electrical and electronic products should be disposed of separately from normal household waste via designated collection points provided by government or local authorities.
- The correct disposal of electrical and electronic products will help protect the environment and human health.

Declaration of RoHS Compliance

We're determined to reduce the impact we have on the environment and take responsibility for the earth we live on. So this document allows us to formally declare that the NX907J, manufactured by Nubia Technology Co., Ltd, fully complies with the European Parliament's RoHS (Restriction of Hazardous Substances) Directive 2011/65/EU, with respect to all the following substances:

- (1) Lead (Pb)
- (2) Mercury (Hg)
- (3) Cadmium (Cd)
- (4) Hexavalent Chromium (Cr (VI))
- (5) Polybrominated biphenyl (PBB)
- (6) Polybrominated diphenyl ether (PBDE)

Our compliance is witnessed by written declaration from our suppliers. This confirms that any potential trace contamination levels of the substances listed above are below the maximum level set by EU 2011/65/EU, or are exempt due to their application.

The NX907J manufactured by Nubia Technology Co., Ltd meets all the requirements of EU 2011/65/EU.

Health and safety

The device meets international guidelines for exposure to radio waves.

Your device is a radio transmitter and receiver. It's designed not to exceed the limits for exposure to radio waves recommended by international guidelines. The guidelines were developed by the International Commission on Non-Ionizing Radiation Protection (ICNIRP), an independent technical standards body, and include margins designed to assure the safety of all persons, regardless of age and health. These guidelines use a unit of measurement known as Specific Absorption Rate (SAR). The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested for use at the head was 0.264 W/kg and when tested for use at the body was 1.534 W/kg ¹...

1. The tests are carried out in accordance with IEC standard PT62209-1.

In SAR measurement, the separation distance between the phone and test device is 5mm.

As SAR is measured when the device is on its highest transmitting power, the actual SAR of this device while operating normally is typically below the levels shown above. This is because the device automatically changes its power level to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices.

Important safety information

For your own health and safety, please follow the radio frequency (RF) radiation exposure guidelines and keep your phone no less than 1.5 cm away from your body.

Failure to do this could mean that your RF exposure exceeds the guideline limits.

How to limit your radio frequency (RF) exposure

The World Health Organization (WHO) gives the following advice to people who want to limit their exposure to RF radiation...

Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If individuals are concerned, they may choose to limit their own or their children's RF exposure by limiting the length of calls, or using 'hands-free' devices to keep mobile phones away from the head and body.

Further information on the subject can be obtained from the World Health Organization website at <http://www.who.int/peh-emf> WHO Fact sheet 193: June 2000.

Safety warning

- To prevent possible hearing damage when using a headset, do not use high volume for long period.
- Use the earphone carefully. Excessive sound pressure from headsets and headphones can cause hearing loss.
- Adapter shall be installed near the equipment and shall be easily accessible.
- The phone's normal operating temperature is $-10^{\circ}\text{C} \sim 45^{\circ}\text{C}$. In order to ensure the normal phone functions, do not use this phone outside the temperature range.

Technical Information

Frequency bands	Maximum output power (dBm)
GSM850	33±2
GSM900	33±2
GSM1800	30±2
GSM1900	30±2
WCDMA Band I	24 + 1/-3
WCDMA Band II	24 + 1/-3
WCDMA Band V	24 + 1/-3
WCDMA Band VIII	24 + 1/-3
LTE Band 1	23 + 2.7/-2.7
LTE Band 3	23 + 2.7/-2.7
LTE Band 5	23 + 2.7/-2.7
LTE Band 7	23 + 2.7/-2.7
LTE Band 8	23 + 2.7/-2.7
LTE Band 20	23 + 2.7/-2.7
LTE Band 40	23 + 2.7/-2.7
802.11b	13 ~ 20
802.11g	11 ~ 20
802.11n (HT20)	11 ~ 20
BT LE	10
BT EDR	10

Firmware and software

- The certified firmware version of your phone is LQF020_MB_V1.3.
- The certified software version of your phone is NX907J_ENCommon_V1.07.

EU Declaration of Conformity (DoC)

Hereby, Nubia Technology Co., Ltd. declares that this device is in conformity with the Radio Equipment

Directive: 2014 / 53 / EU.

For the declaration of conformity, visit

<http://www.nubia.com/en/support.php?a=download>.

Statement of Third-party Applications

During the installation process of some third-party applications, the issues of repeated restart or abnormal use of software might be caused by incompatibility of the third-party applications, rather than the phone itself.

Please download your software upgrade packages from the reliable official website.

The installation of a third-party ROM or non-official operating system might bring safety risks and security threats. Nubia Technology Co., Ltd. shall not be liable for these risks and threats caused by upgrade of the operating system.

Un coup d'oeil sur votre téléphone

Installation de la carte SIM

1. Insérez l'outil d'éjection de la carte SIM dans le trou à côté de l'emplacement des cartes. Appuyez jusqu'à ce que le chariot portant les cartes soit éjecté.
2. Placez la carte SIM sur l'emplacement souhaité.
3. Remettez le chariot portant les cartes dans son emplacement.

N.B.

Les emplacements n'acceptent que des cartes SIM de type NANO.

Insertion de la carte mémoire

1. Insérez l'outil d'éjection de cartes dans le trou à côté de l'emplacement des cartes. Appuyez jusqu'à ce que le chariot portant les cartes soit éjecté.
2. Placez la carte mémoire sur l'emplacement dédié.
3. Remettez le chariot portant les cartes dans son emplacement.

Charge de la batterie

Connectez le téléphone à la prise secteur à l'aide du câble USB fourni et de l'adaptateur secteur.

N.B.

- Il y a un risque de surchauffe pendant le chargement.
- Utilisez un câble USB ou un adaptateur secteur inadapté pourrait diminuer la durée de vie de votre téléphone ou provoquer des incendies, des explosions et d'autres risques.

Déclaration de conformité de l'UE (DoC)

Déclaration de conformité de l'UE (DoC)

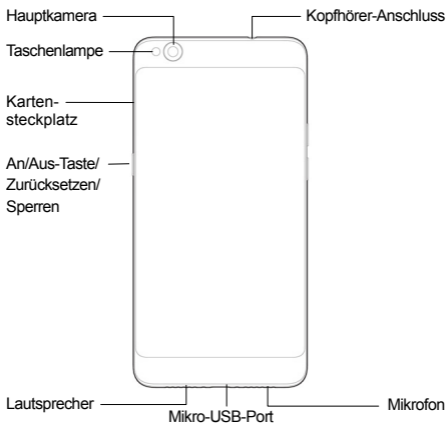

Par la présente, ARCHOS (Adresse de contact: ARCHOS SA, 12 rue Ampère 91430 Igny France) déclare que le Diamond Gamma est conforme à la Directive sur les équipements radioélectriques: 2014/53/UE.

Pour la déclaration de conformité, veuillez visiter :

Ihr Telefon im Überblick

Einsetzen und Entfernen der Sim-karte

1. Stecken Sie das Kartenauswurf-Werkzeug in die Vertiefung Ihrer Kartenschiene; drücken Sie es leicht hinein, um die Schiene auszuwerfen.
2. Legen Sie eine oder beide Simkarten in das Fach.
3. Schieben Sie das Kartenfach wieder in das Telefon.

Hinweis

Abmessungen der Nano Sim-Karte: 9mm*12mm.

Einsetzen der Speicherkarte

1. Legen Sie die Kante des Auswurfwerkzeug in das Loch des Kartenfach und drücken Sie sie fest, bis das Fach herauspringt.
2. Lege eine Speicherkarte in das Fach ein.
3. Drücken Sie das Kartenfach wieder in das Telefon.

Das Aufladen des Akkus

Schließen Sie das Telefon an die Steckdose über das Mitgelieferte USB-Kabel & Netzteil an.

Hinweis

- Während des Ladevorgang kann es zu Erwärmung des Telefons und dessen Netzteiladapter kommen.
- Die Verwendung anderer nicht mitgelieferter Ladekabel oder Netzadapter, könnten zu Feuer, Explosion und andere Gefahren führen und die Lebensdauer des Telefons verringern.

Su teléfono de un vistazo

Inserción de la tarjeta SIM

1. Inserte el extremo de la herramienta de expulsión en el orificio de la bandeja de la tarjeta y presione firmemente hasta que la bandeja salte.
2. Coloque una o dos tarjetas nano-SIM en la bandeja.
3. Empuje la bandeja de la tarjeta de nuevo en el teléfono.

Nota

Dimensiones de la tarjeta nano-SIM: 9mm*12mm.

Inserción de la tarjeta de memoria

1. Inserte el extremo de la herramienta de expulsión en el orificio de la bandeja de la tarjeta y presione firmemente hasta que la bandeja salte.
2. Coloque la tarjeta de memoria en la bandeja.
3. Empuje la bandeja de la tarjeta de nuevo en el teléfono.

Carga de la batería

Conecte el teléfono a la toma de corriente mediante el cable USB incluido y el adaptador de corriente.

Nota

- Su teléfono y el adaptador de corriente podrían calentarse durante la carga.
- El uso de otro cable USB o adaptador de corriente podría acortar la vida útil de su teléfono o provocar un incendio, explosión u otros peligros.

Panoramica del telefono

Inserimento della scheda SIM

1. Inserire la spilletta per l'estrazione del carrello nel foro e premere fermamente finché il carrello non viene espulso.
2. Inserire una o entrambe le schede nano-SIM nel carrello.
3. Spingere il carrello fino alla chiusura completa.

Nota:

Le dimensioni della nano-SIM sono di 9mm*12mm.

Inserimento della scheda di memoria

1. Inserire la spilletta per l'estrazione del carrello nel foro e premere fermamente finché il carrello non viene espulso.
2. Inserire la scheda micro SD nel carrello.
3. Spingere il carrello fino alla chiusura completa.

Ricarica della batteria

Collegare il telefono alla presa di corrente utilizzando il cavo USB ed il caricabatterie inclusi.

Nota:

- Il telefono ed il caricabatterie potrebbero riscaldarsi durante la ricarica.
- L'uso di un cavo USB o di un caricabatterie non originali potrebbero diminuire la durata di vita del telefono o provocare incendi, esplosioni o altri pericoli.
