

ARCHOS Unveils Fastest Tablets with G9 Tablet Range

The G9 range features the industry's fastest dual-core 1.5 GHz processor, the largest storage capacity with a Seagate 250GB Hard Drive, Honeycomb 3.1, Android Market™, 1080p HD video and 3G capability

DENVER, CO – June 23, 2011 - Today, ARCHOS, an award winning technology innovator and pioneer in the tablet market, introduces an unrivaled combination of speed and storage with its latest tablets featuring an OMAP 4 processor with an **ARM Cortex dual-core A9 running at 1.5 GHz** and Seagate's **250GB Hard Disk Drive (HDD) capacity**.

The 8" ARCHOS 80 G9 and 10" ARCHOS 101 G9 are powered by **Android™ 3.1 "Honeycomb,"*** the latest Android version. ARCHOS G9 tablets come with Google's full suite of mobile applications and **Android Market™**, giving users access to over 200,000 applications such as games, books, social media and news. With the latest version of Honeycomb, G9 tablets also offer a full web experience complete with Adobe® Flash® support for on-the-go web browsing, communication and applications.

Additionally, the G9 tablets feature a **unique 3G ready solution** where customers no longer need to choose between WiFi and 3G models at purchase. ARCHOS 3G Stick is a standard 3G stick for laptops which has been designed to be compatible with all ARCHOS G9 tablets. All G9 tablets come with a concealed USB port on the back of the device that when paired with the ARCHOS 3G USB Stick will enable 3G connectivity.

The G9 tablet range continues to push technological boundaries and features the following innovations.

Fastest Tablet Experience Ever

ARCHOS have decided to push their G9 tablets even further by loading them out with a 1.5 GHz dual-core OMAP 4 processor from Texas Instruments™. With 50% more raw computational power,

ARCHOS G9 tablets have the power needed for a great Android experience.

For example, with the 1.5 GHz OMAP 4 processor the ARCHOS G9 tablet enhance a user's web browsing experience with page load time reduced by up to 50% over tablets running the Nvidia Tegra 2™ processor at 1 GHz.

All your HD multimedia in your hands or on TV

With the best multimedia experience, ARCHOS G9 tablets are the only tablets able to decode 1080p H264 High Profile videos whilst current standard tablets are not even able to play 720p H264 High Profile smoothly.

ARCHOS have replaced the standard multimedia apps with ARCHOS boosted apps for video and music to give to users more format compatibility and a unique user interface.

With film and TV series metadata automatically downloaded, even video files are automatically organized by title, actor, director, year, season and episode, ARCHOS have redefined the tablet device category by providing consumers more ways to experience HD entertainment.

ARCHOS G9 tablets also feature an HDMI output, giving users full access to their Android experience on TV including movies in 1080p resolution.

WiFi or 3G, no need to choose, it's up to you whenever you want

This patented solution lets the consumer add a standard PC 3G stick to his tablet whenever and wherever. The ARCHOS G9 3G Stick has been specially designed to fit perfectly into the back of any G9 tablet. Just remove the cover and slide in the ARCHOS G9 3G Stick to unleash the full portability of your ARCHOS G9 tablet.

With this innovative USB 3G stick, consumers will no longer have to choose between a WiFi and a 3G tablet at purchase. For just a \$49 upgrade, the users can purchase the ARCHOS G9 3G Stick and start enjoying 3G

connectivity on his ARCHOS tablet or PCs compared to other tablets where 3G modules add over \$100 to the cost and there's no option to add it later.

This cutting edge 3G stick offers one 3G solution for both a tablet and a laptop and uses just one data plan¹. Offered as a Pay-As-You-Go Plan, there is no subscription required and the consumer need only pay for what they need when they need it.

Top performance, best value

While the competitors' tablets are priced starting at \$499, ARCHOS is offering an 8" tablet starting at \$279 and 10.1" tablet starting at \$349.

ARCHOS is offering cutting edge performance such as powerful and faster processor, unique 3G solution, enhanced multimedia experience and more storage capacity with the built-in 250GB HDD from Seagate.

ARCHOS are the first in the industry to offer a tablet with a hard drive, bringing 8 times more storage at the same cost of a standard 32GB tablet.

ARCHOS are also the first to offer such high performance at such affordable price, making ARCHOS G9 tablets the best cost-performance value.

The ARCHOS 80 G9 and ARCHOS 101 G9 will be available at the end of September and will be shown beginning of September at IFA.

Two tablets to fit your lifestyle: ARCHOS 80 G9 and ARCHOS 101 G9

The ARCHOS 80 G9 is the portable tablet with perfect size for web browsing, ebook and newspaper reading with its 8" 4:3 screen and a resolution of 1024 x 768.

The ARCHOS 101 G9 is the perfect entertainment tablet to share the Android Honeycomb experience. With 250GB of storage space, users will be able to carry over 50 hours of full 1080p HD to watch on their 10.1" wide 1280 x 800 16:10 screen.

About ARCHOS

Archos, pioneer in the portable audio and video player market, and now specialized in Android powered Internet Tablets, has repeatedly revolutionized the market for consumer electronics since 1988. Today, ARCHOS offers Internet Tablets, Tablet PCs and MP3/MP4 players. In 2000, ARCHOS launched the Jukebox 6000, the first MP3 player combined with a hard disk. Then in 2003 ARCHOS introduced the first portable multimedia players with TV recording. In 2006 Wi-Fi is implemented and then touch screens in 2007. In 2008, Archos launched the first generation Internet Tablets, and then the first ever Android powered tablets in 2009. ARCHOS has offices in the United States, Europe and Asia.
