**With GlocalMe, get connected in 4G and 5G from all your mobile devices and share your data without obligation or long-term contracts.**

**Paris November, 12<sup>th</sup> 2020** - ARCHOS, French pioneer in consumer electronics, in collaboration with GlocalMe, a brand from UcloudLink, leader in "Cloud Sim" and virtual SIM solutions, listed on Nasdaq (code: UCL), offers an innovative solution for connectivity integrating the router and a multi-operator data access, in 4G and 5G, featuring data "à la carte" without long-term contract.

**GlocalMe U3: multi device and multi country 4G access without long-term contract and with optimized SIM-less reception.**

An ultra-thin and lightweight product allowing, without SIM card, an easy and immediate 4G connectivity in more than 140 countries worldwide.

Up to 10 users will be able to connect simultaneously.

The offer will be non-binding and rechargeable according to consumer's data consumption, from their smartphone, tablet or computer.

The GlocalME U3 can easily connect all types of devices (computer, tablets, smartphones) to the 4G network.

**This model will be marketed at 99.99€ with 10GB of free data in France and at 139.99€ with 24GB of free data in 49 European countries, starting December 1<sup>st</sup> 2020.**

## GlocalMe U5: deploying multi-platform 5G connectivity

The U5 model, equipped with WiFi 6, will allow consumers to benefit from 5G connection from any mobile device.

Its 1.44" screen will provide key information on data consumption or battery life.

The retail price will be communicated in the first quarter of 2021 with the goal of democratizing the 5G connection on multi-platforms such as tablets and computer PC and offering an un-matched experience without long-term contract.

**GlocalMe is a unique offer of 4G/5G connectivity, easy to use and affordable, combining the router and data, targeted to families, small business and people on the move:**

- No long-term contract needed
- Connect up to 10 users at the same time
- Economical in data consumption
- Multi-operators and selection of the best coverage and reception in 140 countries
- No need to install a SIM card, ready and easy to use
- Account management directly from your phone, Hotline available 24/7
- Enable a secure connection compare to a public wifi

### About GlocalMe

As the parent company of GlocalMe, uCloudlink's mission is to improve people's connection and maximize network usage through sharing of mobile data traffic. Technology is at the heart of our operations, deploying over 100 patents and continuously investing in R&D. Listed on NASDAQ (UCL) and serving more than 140 countries and regions as a global company, we provide the best mobile data services. Our Cloud SIM technology provides a premium experience to billions of users by accessing services over multi-networks. [www.glocalme.com](http://www.glocalme.com)

### ABOUT ARCHOS

ARCHOS, a pioneer in consumer electronics, has constantly revolutionized this market.
